

## DiVine Autumn at Terme di Saturnia

It's harvest time at Terme di Saturnia!

In the coming season the wild landscape of Tuscan Maremma will turn into a unique and inspirational scenery: green wine-yards, rolling hills, shades and scents of pure authenticity. The wine grape harvest is the first step of the process that allows the local wineries to produce the excellent wines that made Tuscany famous all over the world.

The combination of a regenerating bath in the unique thermal spring with an authentic experience in the local tradition has inspired "DiVine Autumn" the new program to be launched soon for our guests who will have a chance to admire the fascinating and colored rows of the vineyards being surrounded by the nature, touching the ground, breathing the fresh air and the smell of the soil and grapes.

A visit to the Winery Vignaioli in Scansano, leader on the market for wine production and specifically for the DOCG (controlled and guaranteed denomination of origin) Morellino di Scansano, will be included in the programme. A tasting of the local wine and farm-to-table products will follow.

DiVine Autumn is a chance for Terme di Saturnia to **strengthen** the important connection with the destination and to highlight the local culinary ingredients and recipes. At the restaurant our chef will propose delicate but authentic flavors and turn them into a real wellness experience.

The team of experts at the award-winning SPA have developed a new protocol: IDRAVITIS, a beauty body ritual consisting of a delicate scrub with grape pips, a kind of Natural Wine Bath for better hydration and skin sheen.

For the Golf Enthusiasts and thanks to the mild climate of Tuscan Maremma, there will be also a chance to play the 18-hole championship and GEO certified golf course amidst the colourful Autumn shades.

### **DiVine Autumn includes:**

- A 2-night stay including Buffet Breakfast
- Visit and Wine tasting at the Winery Vignaioli in Scansano
