

BACK TO THE SOURCE.

An historical heritage is a property that doesn't belong to the few,
rather to everyone.

For 100 years Terme di Saturnia has been the guardian of a unique age-old spring, of a crater that has made the history of thermal tourism, of a water that the ancients used to call "holy bath". In 1919 as in 2019, yesterday as nowadays, the power of the spring makes Terme di Saturnia the ultimate spa destination in Italy.

Terme di Saturnia celebrates 100 years and during its 100th anniversary many innovations are planned and dedicated to its renewal.

THE RESTART NUMBERS

The team led by Massimo Caputi, Executive President of Terme di Saturnia and reference partner of Feidos, the company that - together with the American fund York Capital - purchased the asset in September 2017 for 40 million euros, wants to bring back the brand of Terme di Saturnia to its ancient splendor. The interventions of this 2019 are part of the implementation of Restart Saturnia, a relaunch and development project started in November 2017 with the acquisition and an investment plan of 8 million euros, equal to 50% of the annual turnover.

THE RESORT

The 5-star Resort, a member of Leading Hotels of the World, started its renovation from the preview of the new rooms in which interiors are celebrated with a decorative charm interpreted in a modern key: the modern furniture mixes with a collection of accessories and items that have a common denominator: research. The new rooms have in fact been created according to the concept of modern Tuscanism and furnished with design objects strongly characterized, such as the pattern shown on the fabrics that decorate some of the furnishings, designed exclusively for Terme di Saturnia.

The restyling continues with the new installations of the common areas and the breakfast area, here the architectural and interior design choices will contribute to enhance the spaces as a whole with the rooms, giving the Guest the chance to experience all the areas of the Resort with a great sense of continuous freedom. Small libraries, reading rooms, relaxing lounges, outdoor buffet, skylights and winter gardens.

Even the outdoors will experience a real redevelopment, nature is part of the experience itself, for this reason a complete restyling of the greenery surrounding the thermal spring and the Resort is planned.

1919 RESTAURANT

2019 will see a complete food revolution starting with the collaboration with the Michelin Starred Chef Roberto Rossi who signs the new gastronomic line of the hotel restaurant and of all the culinary offer of Terme di Saturnia, coordinating the work of Chef Alessandro Bocci, key figure for the Restaurant of Terme di Saturnia for 30 years, and Chef Luca Cecconi, by his side since 2012.

A table that hosts ingredients of the territory honoring the seasonality of Nature with a menu linked to Maremman and Tuscan culinary culture, but with a look to all the Italian excellences.

BEAUTY CLINIC

Terme di Saturnia SPA has been awarded as "Best Medical SPA" at the Italian SPA Awards, thanks to the millenary power of the spring water, which contributes, together with the great professional knowledge of our experts, to the medical and wellness offer. Among the 2019 Spa menu brand-news, three treatments stand out: Medi Face, two different integrated protocols for face and neck that combines the professional expertise of a doctor and a beautician; Endermologie® Face and Body, with the innovative technology of CELLU M6® - Alliance, designed to reactivate the cellular activity at the heart of our skin and fight against all the imperfections with immediately visible results; the Tecar Therapy, an electromedical treatment that allows to speed up the recovery of traumas and inflammatory pathologies.

CLUB

The Club will be the protagonist of a great season of novelty: a reception area completely renewed, redesigned changing rooms, and a brand-new sauna, reconfigured within a relaxation space in complete renewal.

The re-design of the emotional experience of wellness will be completed in a second stage with the inauguration of a new relaxation area characterized by the warm and cozy atmosphere of a real living room around a fireplace, and with a new steamy area inside the "Casale": inspired by the hammam revised in a "Maremmian Way" with two tepidarium, a steam bath, an argillarium. The ritual will be completed with a new a treatment room dedicated where to re-energizing treatments on travertine beds.

TERME

2019 will be a year of renewal at several stages also for the thermal park that have seen the first interventions on April. During the year it is planned the reconfiguration of the locker rooms and the relaxation areas, in addition to the creation of a Sauna Park with different types of saunas and steam baths to improve the offer and the quality of services. Among the targets, there are the improvement of the reachability of the destination through partnerships on the territory and the implementation of hi-tech systems that will optimize the access procedures to give the guests the opportunity to dedicate themselves exclusively to relaxation.

TRAINING / EDUCATION

The company is strongly committed, with an important investment, in the research and the training of young talents who will have the opportunity to increase their experience in a prestigious environment such as Terme di Saturnia. Great attention is paid to the continuous control of quality standards and to the growth of the company spirit.

In this regard, it is strategic the collaboration with the Luiss Business School for a specialization course in Spa, Terme & Wellness Management, that has the goal of forming new managers of the wellness industry.

GOLF

Even the Golf Club House is involved in the restyling project, in fact numerous improvements are expected for the hospitality of golfers, new spaces and better facilities as well as a new dedicated restaurant. The practice for maintaining the GEO Certification continues, one of the the most coveted cerification worldwide, assigned by the GEO Team.

THE ULTIMATE AGE-OLD SOURCE IN ITALY

At the foot of the homonymous medieval village in the heart of the Tuscan Maremma, there are 120 hectares dedicated to well-being: Terme di Saturnia is told around the centuries-old spring from which a very powerful water, unique in the world, gushes restlessly. Here lies the authentic, historical and natural beauty. For 3,000 years the thermal water has been pouring continuously from the heart of the earth, into a crater at a temperature of 37 ° C. The continuous change allows the thermal water to maintain its beneficial characteristics without the need for any external manipulation. For 40 years the water travels underground and then it emerges in the natural spring where the Resort faces. In every liter of water 2,790 grams of mineral salts are dissolved, in addition to large amounts of gas, hydrogen sulfide and carbon dioxide. Its beneficial effects are immense and innumerable, having effects on the cardio-circulatory, respiratory, muscular and skeletal system. Moreover, this unique water has strong protective, antioxidant and purifying action; on the skin it has a natural peeling action with exfoliating, cleansing and moisturizing properties.

THERMAL DESTINATION.

Terme di Saturnia is an ancient place of well-being that rises on the ultimate spring in Italy. The Terme di Saturnia brand includes: the 5-star Resort, member of The Leading Hotels of the World; the Thermal Park, the largest in Europe; the 53-cabin Soft Medical Spa with award-winning and innovative spa and beauty treatments, massages and medical consultations; the Club, a club dedicated to members or external guests who also wish to access the spring pool and the facilities of the Resort; the Resort Restaurant signed by the starred Chef Roberto Rossi; the Golf Club, an 18-hole Eco-Friendly championship course of 6316 meters on 70 hectares, designed by the famous American architect Ronald Fream.
