Specialist in Dermatology and Thermal Medicine

PRELIMINARY CONSULTATION

Doctor Domenico Mazzone, dermatologist and aesthetic medicine specialist and head of the Aesthetic Medicine is available for a preliminary mandatory and complimentary consultation, to recommend treatments.

TRIPOLAR RADIOFREQUENCY

ENDYMED PRO 3 DEEP • 25 min / 45 min € 180 / 220

An advanced technology that warms the collagen of the dermis and the underlying tissue painlessly promoting the production of new collagen and elastic fiber. Its effects are visible from the first treatment. The treatment is particularly recommended for remodeling and toning the body (abdomen, legs, glutei). It is excellent for toning and smoothing wrinkles on the face and neck, the cheeks, the cheekbones and double chin.

MEDI FACE • 80 min € 420 / 480

Integrated protocols that encompass the professional competence of Doctor and Beautician. Two different treatments for the face and neck: the first is particularly suitable for those who want to give brightness and an extraordinary plumping effect in a single session thanks to the use of hyaluronic acid; the second, is suggested for those who wish to definitively lighten the spots on the face thanks to the use of vitamin C.

FILLER

HYALURONIC ACID FILLER • 25 min

€ 460 / 600

One of the most effective anti-ageing treatments with optimal results in the reduction of bags and rings under the eyes, for a fresher and more appealing face. An injective treatment using hyaluronic acid distinguished by its exceptional consistency that makes it ideal for filling in both surface and deep wrinkles and the revitalization of the ocular area.

INJECTION THERAPIES

LIFTING THREADS • 50 min

€ 160 / 400

This is an important revitalizing and lifting treatment for face and body which removes lines by inserting polydioxanone lifting threads that lift and stimulate the regenerate of loose tissue, encouraging the formation of new collagen, responsible for skin elasticity.

FACIAL BOTULIN • 25 min

€ 500

The most powerful anti-wrinkling beauty treatment. It produces evident rejuvenation of the face by acting on the relaxation of the facial expression muscles with excellent results in reducing bags and shadows under the eyes. A safe, anallergic, quick and painless treatment that doesn't cause bruising.

BOTULIN LOCALIZED HYPERHIDROSIS • 50 min

€ 1000

An effective treatment to reduce axillary, palmar and plantar hyperhidrosis; botulin is the preferred treatment to tackle excessive sweating in the indicated areas.

CARBOSSITHERAPY FACE | BODY

€ 170 / 150

Localized microinjections of medical carbon dioxide have various effects according to the specific area of the body involved. Performed on the face, neck and décolleté, carbosstherapy provides luminosity and tone, while it renders the skin on the body more elastic, tackling unsightliness such as cellulite, localized adiposity, stretch marks and scarring.

BIOSTIMULATION

€ 250

A medical beauty treatment using hyaluronic acid, vitamins and amino-acid to recuperate skin tone and elasticity, to regain clarity and freshness. Performed on the face, neck and décolleté, it makes the skin brighter and tauter, with progressive "rejuvenation". The treatment is also recommended for treating acne scarring.

PEELING

CLASSIC TURNOVER

AND LIGHTNING TURNOVER PEELING • 25 min

€ 160

This personalized treatment involves the application to the epidermis of one or more chemicals, for a delicate yet deep action exfoliating effect. It is effective in removing a variety of flaws and blemishes.

PRX - T33 BIOREVITALIZING PEELING • 25 min

€ 200

Recommended for those looking to rejuvenate their face without using injections and those looking to tighten and smooth the skin. It moisturizes the dermis, brightens the skin and tones tissue. It is recommended for the treatment of acne, scarring and stretch marks. Compatible with sunbathing.

LASER

LASER FRAXEL • 25 min

€ 800

This is a cold, fractional non-ablative laser that use optical fibres to act deep in the tissue with an anti-ageing effect at the level of the epidermis. The Fraxel laser is indicated for the treatment of superficial and deep wrinkles of the face, including the periorbital area. The Fraxel laser is also used for the removal of fibromas, verrucas, keratosis, seborrheic keratosis, condylomata, cutaneous dyschromia, melasma and scars.

LASER SYNCHRO FT • 50 min

Depilation

€ 150 / 600

Vascular

€ 250 / 500

The Synchro-FT is a multi-functional piece of equipment that can perform depilation treatments on all skin types as well as the removal of vascular damage (couperosis, rosacea, minor teleangectasia, capillaries and veinules). With doctor's approval, it can also be used to treat folliculitis, acne, melasma and pigmented skin damage and for the personalized treatment of cutaneous photorejuvenation.
